WOMAN BEATEN DOWN BY TWO THUGS

PRINCE LEAVES CITY UNDER GUARD

Tsai Hsun Departs for East in
the Private Car of Chas.
M. Schwab.

Revolutionists Protest Hom-
age Paid Distinguished
Chinese Visitor.

SAN FRANCISCO, Sept. 20.—Under a
careful escort of police, and with the
naval officials and the dignitaries of
the reception committee in attendance,
looking much refreshed after a night's
rest, and expressing his thanks for the
entertainment accorded him and the
good will expressed by the community,
Prince Tsai Hsun left the St. Francis
Hotel at 9 o'clock this morning and em-
barked on the 9:30 boat across the bay.

At the Oakland pier, a special train,
including the private car of Charles M.
Schwab, president of the Union Iron
Works, in which the Chinese dignitary
will travel east, was in readiness, and
the overland journey to Washington was
begun.

IMPRESSES OFFICIALS.
With stately dignity, befitting his im-
perial position, and yet with studied
courtesy to those around him, the Chi-
nese prince has impressed favorably the
military and naval officials, and the Chi-
nese nobles from the Oriental quarter
who have surrounded him during his
brief stay here.

Because of the serious illness and the
threatened attack of pneumonia which
is endangering his life, Prince Hsun was
forced to dispense with any entertain-
ment last night retired early on the ad-
vice of his physicians and today de-
clared himself as ready for his trip.

STREETS PATROLLED.
The streets along the route to the ferry
were again carefully patrolled as it was
not the discretion of the police depart-
ment to risk any chances with fanatics
who seem to be ever ready to vent their
feelings in the presence of royalty.

The prince rode again in a closed car-
riage and the majority of his personal
escort accompanied him across the bay.

He is closely attended by Lieutenant
Commander I. V. Gillis, who will be his
companion throughout his stay in the
United States.

Despite yesterday's show of hospital-
ity, and the de-orating of the picturesque
buildings in Chinatown to welcome the
prince, fully half of the Oriental quarter,
including many who lived the streets to
watch the dignitary pass by, are pro-
tecting against the homage accorded him.

REVOLUTIONISTS ACTIVE.
These men are members of or believers
in the Chinese revolutionary society, a
local branch of which is the Tung Chi
Association. They are anxious to
make China a republic and the move-
ment has spread not only in the Orient
but by the forming of societies in the
"little China" throughout the world.

Last night there was a spectacular
in Chinatown, advertising the overthrow
of the Manchurian dynasty, a parade with
banners and lanterns, and a meeting at the
headquarters of the revolutionists at 915
Stockton street.

Where Is 'Miss Sofia'?
Balloon Can't Be Found

All the Starters in Indianapolis
Race but One Are Ac-
counted for.

NEW YORK, Sept. 20.—All but one of
the starters in the balloon race from In-
dianapolis 500 miles have been accounted
for.

The Aero Club here was notified today
that the balloon New York was led at
Fort Worth, Ohio, at 5 p. m. Sunday,
and that the Buckeye came down at
Shawnee, Va., on Monday at 7 p. m.

The word was received of the balloon
Miss Sofia.

ST. PAUL, Sept. 20.—Cardinal Van-
nutelli, representative of Pope Pius X
to the Eucharistic Congress, re-
cently held in Montreal, arrived in St.
Paul today accompanied by his suite,
for a visit to Archbishop Ireland.

Cardinal Vannutelli will remain here
until tomorrow, when he will leave for
Omaha. In the meantime a program of
entertainment has been prepared which
will include a banquet tonight at which

BELLBOY DOFFS UNIFORM FOR LIFE OF EASE

HOWARD GREGORY.

LAD FINDS A BIG FORTUNE

Taken Away From Hotel
by Brother in Hurried
Style

A chance encounter on the street late
Saturday afternoon with a brother whom
he had not seen for fifteen years re-
sulted in a change in the fortunes of
Howard Gregory, a bellboy in the employ
of the Hotel Metropole, where he has
worked for the last five months. His
family believed him to be dead.

At the age of ten years young Gregory
left the paternal roof in Bakersfield seek-
ing adventure, which, during the decade
of his wandering, led him into practically
every State of the Union with varying
fortune.

Coming to this city early in the spring,
Gregory took employment at the hotel
where he was known as an exceptionally
good worker. Nothing was known of his
family until early Sunday morning when
a well-dressed man walked into the lobby
and, approaching Gregory, demanded that
he take off his uniform and accompany
him.

"You have been wayward long enough,"
he said. "And it is time you returned
home. Take off that uniform and pack
your clothes. I want you to come with
me at once."

It was the bell boy's brother, J. G.
Gregory, who spoke.

Gregory did as he was bid by the
brother, who was from Bakersfield, and
the two left the city early the same day.

Gregory's parents have made a fortune
in the oil industry in the southern part
of the State. His brother, who was
stopping here on his way from Seattle,
met the bellboy, dressed in his uniform,
at the corner of Thirteenth street and
Broadway, Saturday evening. Struck
with the family resemblance and having
not seen him for fifteen years, he recog-
nized his brother's face in his memory.

Gregory accompanied him and upon learn-
ing his name accompanied him to the
Metropole and informed him that he had
come here to large property interests.

After the disappearance of the ten-
year-old youth, every effort was made
to find him.

Scottish Hosts Are Gathering in Detroit

Conclave of Royal Order Meets
for the First Time in
Michigan.

DETROIT, Sept. 20.—With the number
of Masonic lodges augmented by
continuous arrivals from all parts of the
country last night the conclave of the
Royal Order of Scotland, meeting for the
first time in Michigan, got well under
way today. Routine work occupied the
morning session, but the conferring of
degrees was scheduled for the afternoon.

James D. Richardson of Washington is
convicted master.

NEW HAVEN, Conn., Sept. 20.—Pres-
ident Arthur T. Hadley of Yale recently
appointed by President Taft chairman of
a stocks and bonds commission, will
go to London next Saturday. He plans
to stay a week in that city, looking
into the question of railroad stocks and
bonds, and will then go to Berlin where
he will spend two weeks in like work.

SOCIETY GIRL BEATEN BY THUGS

Miss Louise Henning Is Set
Upon and Robbed in
Los Angeles.

Found by Patrolman Lying in
Unconscious Heap in
Alley Way.

LOS ANGELES, Sept. 20.—Beaten
and robbed by thugs, who set upon
her shortly after midnight when she
was returning to her home in the ex-
clusive Westlake district after attend-
ing the theater earlier in the evening,
Miss Louise Henning, 19 years
old, lay in an alley unconscious until
an early hour this morning, when her
body was discovered by a patrolman
from the University station. When
found she was lying in a heap at the
edge of a dark alleyway, where her
assaulters had thrown her after ad-
ministering a brutal beating and rob-
bing her of her valuables.

When taken to the Receiving Hospi-
tal the girl told Dr. E. H. Wiley
that she was set upon by two men
while on her way home from visiting a
friend whom she had accompanied a
short distance from her own home
after a trip to the theater. Having
only a couple of blocks to go in well-
lighted streets the girl friend did not
think it necessary to call a cab for
her.

ATTACKED BY THUGS.
She had gone but half a block when
two men who were evidently on watch
for her, jumped out of a dark alley and
seized her from behind. They bound her
with a handkerchief, into which they
had placed a piece of cotton soaked with
chloroform, and gagged her with a like
bandage made from a heavy linen hand-
kerchief. Then they searched her in a le-
sulty manner and obtaining \$25 cash
they pointed her when she attempted
to scream for help. After subjecting her
to outrages until she fainted from fright
and shock, the men fled.

She was unable to give the police an
adequate description of the men because
her eyes were shut by the chloroform
and she was blindfolded. She was in such
a nervous condition at the hospital
that she could not be questioned exten-
sively.

LIVES IN EXCLUSIVE CIRCLES.
Miss Henning's father is a real estate
man who lives in a position with a local
insurance house, and the girl lives with
her father and mother in a part of the
city which is given over to the exclusive
circles, but which is also frequently in-
fested by thugs.

Captain of Detectives Paul Flammher
has detailed four of his best men on
the case.

It is probable that the now noted "Tom
Ziegler," who has made an astonishing
record in catching holdup men and thugs,
will be detailed to follow the case and
stay with it, as he did on a former case
of a similar nature, where he caught his
man after 16 days and nights on the
chase with occasionally an assistant to
watch while he dozed for a few min-
utes.

To Increase O. R. N.
Stock to \$100,000,000

Stockholders Will Be Asked to
Approve Appropriation
Soon.

NEW YORK, Sept. 20.—Stockholders
of the Oregon Short Line railroad com-
pany, controlled by the Union Pacific
railroad, will be asked to approve an ap-
propriation to increase the capital stock
of the company from \$27,500,000 to \$100,
000,000. It will come up for approval at a
stockholders' meeting on October 12, at
Salt Lake City.

All the stock of the Oregon Short Line
is owned by the Union Pacific. Officials
of the Harriman lines said today that
they would support the increase, which amounts
to \$72,500,000, but no new stock
would be issued in the near future but
it would be held for emergency pur-
poses, although the expectation is that
the money will be used for new construc-
tion on the Oregon Short Line next year.

Victim of Accident Takes His Own Life

Henry W. Coates, in Fit of Des-
pondency Fires Shotgun
Charge Into His Body.

SAN JOSE, Sept. 20.—Henry W.
Coates, brother of Leonard Coates, a
homicide suspect, killed himself with a shot-
gun at his orchard far near Morganhill
at a very brief this morning.

He was partially paralyzed from an
accident of three months ago and dis-
pondency prompted the act.

He was a native of England, aged 38
years, and he leaves his wife and three
children.

BANKER'S SON VICTOR IN COURT

\$50,000 Breach of Promise
Suit Dropped by
Attorneys.

No Financial Settlement Made,
Is Stated on Good
Authority.

Clara A. Haggett's \$50,000 breach
of promise suit against Phillip T.
Bowles, Jr., son of the Oakland
banker of that name and private sec-
retary to Victor H. Metcalf while he
was Secretary of the Navy, was dis-
missed in the Superior court about
noon today, each side bearing its
own expense of the litigation.

It can be stated upon the best au-
thority that there was no financial
settlement between Bowles and Miss
Haggett, aside from the fact that
the defendant did pay to Attorney
Carroll Cook of San Francisco, a fee
of less than \$300 for the services he
rendered to Miss Haggett during the
later days of the case. Miss Hag-
gett, herself, received not a dollar as
compensation for her alleged wounded
affections.

BECOMINGLY ATTRED.
After many continuances, this fore-
noon was the time set by Judge Wil-
liam H. Wate for the hearing of the
suit and when his honor ascended
the bench for the day's business Miss
Haggett, becomingly attired in a
long fur coat, was in attendance with
her counsel, Attorney Cook, and O. R.
B. Ledy, who has been the young
woman's confidential adviser in the lit-
igation since its institution. Young
Bowles was not present but was rep-
resented by Attorney Robert M. Fitz-
gerald, while more than a dozen wit-
nesses, summoned by both sides for
service in the event that the case
went to trial, were scattered about
the room.

While the court was disposing of other
matters preliminary to taking up the
suit, Attorney Cook held a conference in
the judge's chambers with his client and
Ledy and afterwards closed himself
alone with Attorney Fitzgerald. An-

Boy Leaps From Buggy on Cliff's Edge; Saves Life

HAYWARD, Sept. 20.—Jumping out of
a buggy just before it fell over a cliff
in Alameda creek to the water and
boulders 100 feet below, after grasping a
small bush at the very brink, probably
saved the life of 16-year-old Tony Dierra
late Saturday night while returning to
his home in Hayward, after a day's out-
ing in the country.

After hunting through the country
around San Ramon, young Dierra started
home over the road which follows along
Alameda creek, and when he had reached
one of the worst places on the highway,

Abruzzi-Elkins Match Declared Off by King

ROME, Sept. 20.—A denial is made by
the royal family today of the engage-
ment of Miss Katherine Elkins and the
Duke of Abruzzi. It is stated that the
royal family absolutely desires that the
two are to be married soon. It had been
stated in dispatches that the Duke of
Abruzzi was to marry the daughter of
the parents of Miss Elkins, the same
privileges that he would bestow upon his
daughter, a condition which had been
demanded by Senator Elkins.

Bullet From Far Away Killed Man in Theater

LOS ANGELES, Sept. 20.—The mys-
tery of the bullet which, without flash
or report from the gun from which it
was fired, instantly killed Rudolph
Castelium as he sat in an open air mov-
ing picture theater last night, it was
quickly cleared up today by the report of
the autopsy surgeon who examined the
wound.

The theory that the bullet was fired
from a "no-leak" rifle at close range
was dispelled by the surgeon's report,
which shows that the shot was probably
fired from a considerable distance.

The bullet, after entering the body of
Castelium took a course downward at an
angle of about 30 degrees, passing
through his heart and right lung.

Judging from the course of the bullet
and the position in which the man was
sitting when shot, the police say that
the bullet was probably fired by some

INQUIRY BOARD READY TO PROBE

Solons Assemble at Chicago to
Investigate Election of
Lorimer to Senate

CHICAGO, Sept. 20.—Senators Robert
J. Gamble, Republican, of South Dakota,
and Thomas H. Payner, Democrat of
Kentucky, members of the senate sub-
committee which is to investigate the
election of William Lorimer to the United
States senate, arrived here today.

Senators Burrows, Heblum and John-
son, having registered yesterday, the
arrival of Senators Gamble and Payner
brings the number of the sub-committee
present up to five. Senator Trazion,
Democrat of Tennessee, is expected to-
morrow.

Senator Burrows, the chairman, re-
ceived word that Senator Bulkeley of
Connecticut, would not be able to at-
tend the sessions here.

DILLINGHAM MAY COME.
Bulkeley was appointed in place of
Senator Dillingham of New York, who is
ill. It is possible, however, that the lat-
ter may come after all in view of Sen-
ator Bulkeley's absence.

Today's session, which will be execu-
tive, for the purpose of outlining the
procedure of the investigation, was
scheduled to begin this afternoon.

Senator Lorimer, accompanied by his
attorney, Edwidge Hamov, called on
Senator Burrows to ascertain what would
be required of him.

Passers-by Come to Rescue in

SAN FRANCISCO, Sept. 20.—
Cruelly beaten to the ground
by two bold highwaymen who at-
tacked her in a lonely neighbor-
hood, and who pinned her to the
pavement, crushing her beneath
the weight of their knees as they
tried to drag her valuable rings
from her fingers, Mrs. Giovannina
Delgianton of 153 Howth street
was the victim of an awful experi-
ence at 11:30 o'clock last night
and is now in a serious condition
under the care of a physician at
her home.

The woman had been attend-
ing a union meeting at Four-
teenth and Mission streets and
returned home on an Ingleside
car. She stopped at Howth
street, alighted and had walked
about fifty feet when a man com-
ing suddenly up in front of her,
caught her in a vice-like grasp
and held her arms to her side.

She let forth one scream of terror,
but her further efforts to sound
an alarm were prevented by a
second footpad who sneaked
upon her from the rear, threw a
handkerchief across her face and
held her gagged.

SEE DIAMOND RING.
In her desperate struggles with the
pair who was thrown prostrate and the
robbers immediately discerned that she
was wearing a diamond ring. After
snatching her purse they held her down
with their knees pressing against her
breast while they tried to tear the di-
amond from the convulsive fingers. In
this they were unsuccessful, and as Mrs.
Delgianton succeeded in crying out once
more and they heard in the distance the
approach of footsteps, they ran off.

The unfortunate woman was, however,
in too weakened a condition to move and
pedestrians who found her took her to
her home, where her husband telephoned
to the police. When detectives arrived
from the Mission station they found the
unhappy victim under the care of Dr.
C. J. Young of 706 Chenery street, who
declared that she was suffering from
internal injuries.

Thugs Beat Victim, Rob Him and Escape

It was all so sudden. I could
scarcely see the men, she gasped
forth painfully, but I feel convinced
that one of them rode out on the
same car with me. As near as I can
remember he was smooth shaven,
would weigh about 150 pounds, and
was 5 feet 6 inches tall. After the
men knocked me down they held me
by kneeling upon my chest and stom-
ach, at the same time trying to pre-
vent me from screaming. I never
had such a horrible experience be-
fore and I hope never to have again.

The Wide Open Town May Be Closed Up in Spots, Is the Belief.

TENDERLOIN WILL NOT BE MOVED, HOWEVER

Young Women and Girls Are to Be Prohibited From Drinking Publicly.

FIRST ACT TO TIGHTEN LID

As his first official act this morning, acting Chief of Police Wall issued orders which mean in effect "keep the lid on in the tenderloin."

When the several captains made their regular call at the chief's office this morning, Wall told them the laws must be enforced and the ordinances of the department adhered to.

I intend to have every officer do his duty and to suppress all crime and to prevent violations of the regulations of every nature while I am at the head of the department," said Wall this morning.

I will make no changes or do anything radical, but I intend that there shall be no laxity in any district.

SAN FRANCISCO, Sept. 25.—At 8 o'clock this morning Captain of Detectives L. A. Wall assumed control of the San Francisco police department as acting chief. He will conduct the affairs of the department until the return of Chief Martin.

Wall's first act was to issue orders to the captains of the various districts to enforce the laws and regulations of the department. He also issued orders to the captains to keep the lid on in the tenderloin.

FAVOR SETTLING WATER CO. SUITS

Colonel Irish and Mayor Mott Are Against Continued Litigation.

Following the series of speeches that Colonel John P. Irish and other prominent men have been making, in favor of dropping the costly litigation between the Contra Costa Water company and the city of Oakland, a vigorous campaign has been started to educate the people on the merits of the case.

According to the statements made by Colonel Irish, the litigation which has been inherited by the People's Water company, successors of the Contra Costa Water company, has cost over \$40,000. It is generally believed by those who have investigated the case that the litigation should be settled at once to avoid further expense in the future.

SHOULD BE SETTLED

The litigation between the water company and the city is a most complicated and vexatious question and a lot of money would be expended in settling it. The city cannot afford to continue the litigation, which has cost it over \$40,000.

It is believed that the city should settle the case at once to avoid further expense in the future.

other conference with Miss Haggett and today followed and then Attorney Cook presented a waiver of trial by jury, with the concurrence of Attorney Fitzgerald.

An hour afterwards the motion to dismiss was filed in the office of the County Attorney Cook, signed by Miss Haggett and Attorney Fitzgerald for Eowles.

This suit has been one of the most sensational actions of its kind ever brought in the local courts. It was filed on January 21, 1909, by Attorney William H. Miller of San Francisco as counsel for Miss Haggett, and alleged that Eowles had seduced her and then refused to marry her.

DENIES ALLEGATIONS

During the months that followed the institution of the action Eowles filed his answer denying all the charges and incidentally there occurred many side sessions in which Miss Haggett's lawyers figured prominently. Eowles came out from the east and to whom has been charged the responsibility for the bringing of the action.

Attorney Miller was the next party connected with the defense to Eowles. He was accused of seducing her and then refusing to marry her.

CALLS BAY REGION WONDERLAND OF WORLD

Former President of the State Normal School Finds Much of Interest.

PHYSICAL GEOGRAPHY WORK IS EXTENDED

Under Direction of Professor Childs Much Is Being Accomplished.

"This bay region is the most wonderful country in the world. Within a radius of fifteen miles of Oak and may be found practically every formation and every phenomenon pertaining to the erosion of the earth's surface which is of interest to the student of physical geography."

The above interesting statement was made this morning by Professor C. W. Childs, former president of the State Normal School at San Jose and at one time lecturer throughout the country for the Department of Agriculture under the government and now carrying on work in the Oakland Manual Training and Commercial High School, connected with which is a series of lectures and lantern slides.

Once each week a class is taken by the professor to points about the bay which presents an opportunity for study of a particular subject under physical geography. Notes are made and specimens, together with photographs and actual observation on the part of the student tend to instruct in a manner not possible through the use of text books alone. It also has a tendency, according to Professor Childs, of increasing the student's sense for observation of natural surroundings.

WORK INSTITUTED.

The work has recently been instituted by the Board of Education in the schools and Professor Childs will give a series of lectures commencing next month in the various districts in connection with his work at the Manual Training High School. The subjects to be discussed include, for example, "Harbors of Oakland and San Francisco and the reconstruction of the Sacramento river;" also "Physical features of California in relation to agriculture;" "Commerce" together with lectures pertaining to the Panama canal and the islands of the Pacific as tributary to the commerce of San Francisco Bay. It is the purpose of the professor to give a series of lectures on the bay region which has been greatly assisted by Congressman Joseph R. Knowland, who has made it possible for him to obtain rare photographs from the departments under government supervision which would otherwise have been impossible to get.

INTEREST INCREASING.

That the work will be carried on with increasing interest has been demonstrated by the fact that it has been accomplished by the classes taken out each week, and with the attention which has been attracted to the lectures and lantern pictures. It is the intention of the board to provide for assembly halls in all new buildings for the accommodation of the neighborhood as well as the pupils and in these will be given regular lectures on various subjects.

"Adequate assembly halls in the city schools is one of the greatest needs in this city," said the professor, "and provision will undoubtedly be made for them in the future. It will then be possible to carry on educational features of this nature which will be a great advantage to the respective communities."

TO BE EXTENDED.

Work is at present being confined to the Manual Training and Commercial High School, but will be extended the first of October to other branches of the Oakland school system by exhibitions of lantern slides and lectures.

It is the intention at a future time to obtain moving pictures in conjunction with other school departments about the bay which will be placed on a circuit and shown continuously in the school assembly halls or convenient halls in the vicinity of the school.

PORTUGUESE WOMEN CONFER HIGH HONOR ON MRS. PIMENTAL

MRS. ISABEL PIMENTAL, Who Was Elected Supreme President of the Ladies Portuguese Society at the Convention today

Mrs. Isabel Pimental, one of the directors of the Ladies Portuguese Society, was elected supreme president at the afternoon session of the supreme convention of that society, which opened yesterday morning with a high mass, celebrated in St. Joseph's church. She was chosen without opposition and will be installed with her staff of newly elected officers Thursday evening in Castle Hall, Twelfth and Franklin streets.

The following were elected to direct the affairs of the society for the ensuing year: Mrs. Isabel Pimental, Oakland, supreme president; Mrs. Mary Anna, San Luis Obispo, supreme vice-president; Mrs. Adelaide Fonseca, Oakland, supreme secretary; Mrs. C. L. Soares, Oakland, supreme treasurer; Mrs. Maria N. Simas, Hayward, mistress of ceremonies; Mrs. Maria Pires, Oakland, supreme marshal; Mrs. Libao, Tres Pinos, inner guard; The supreme directors are Mrs. Maria Pires, Oakland, past grand president; Mrs.

Georgina Brava, San Leandro, past grand president; Mrs. Maria Nicholas, Oakland; Mrs. Lucia B. Soares, San Rafael; Mrs. Haywood; Mrs. Theresa Rodriguez, Oakland; Mr. M. M. Enos, supreme physician.

According to the report read by the president yesterday, there is a gain of 246 members over the enrollment of last year. The secretary's report stated that \$89.60 had been paid out in death benefits during the past year and the treasurer announced that the society is in good financial standing, having \$232.00 in the bank and \$152.00 on hand, making a total of \$384.00 in the treasury.

The delegates' supreme officers and their friends will attend a ball to be given this evening in Bawli Hall, Fifteenth and Harrison streets. Tomorrow evening there will be a banquet in one of the cafes of this city for the officers and delegates. The sessions will conclude Thursday evening in Castle Hall, with the public installation of officers.

Following a visit of members of the Park Commission to De Fremery park in West Oakland this morning, it was officially decided to grant to the playground commission an additional 33 feet to square the section already placed in the hands of the playground works. This will permit the making of a top playground, with full equipment, and orders have already been placed for much of the apparatus.

The request for the additional strip of land was made at the last regular meeting of the Park Commission and was referred to Park Commissioner Edoff with power to act. Secretary of the Park Commission Henry Vogt and Commissioner Edoff visited the park this morning and decided that the grant should be made, as it will enhance the value of the playground materially.

The playground will be placed in commission as soon as the equipment can be installed. It is hoped that the old De Fremery residence will be turned over to the playground commission to be fitted up for the use of the children and mothers of the district. Reading rooms, locker and dressing rooms, and assembly hall for folk dancing, winter indoor shelter and entertainments, and rooms for the meetings of the mothers' clubs will be provided if this action is taken.

GRISCOM IS SATISFIED.

NEW YORK, Sept. 20.—Lloyd C. Griscom gave out this statement here last night on the New Haven conference: "I am perfectly satisfied with the situation. I was very much gratified to find that President Taft's position has not changed since he wrote me on August 10. The President has a thorough understanding of the issues involved in the situation in this State."

Strangers passing through on the train between Oakland and San Jose, the races, the dancing and other are noticing the bustle going on at Newark and are already planning to be at the latter place on September 24, to participate in the festivities.

Special trains and low rates have been made by the Southern Pacific on Saturday, that every one may be able to go, and not be crowded through lack of cars.

FREEHOLDERS AT WORK FRANCHISE PROVISION

Minor Amendments Are Made to Most of the Sections Considered.

REGULATION OF PUBLIC UTILITY RATES ALLEGED

Board Laboring Against Time to Put Tentative Charter Through Quickly.

The board of freeholders are working hard on the revision of the tentative charter adopted, so as to finish the work within the time allotted by law, which expires on October 1.

The board assembled at 7:30 o'clock last night at the rooms of the board of education in the Central Bank building and got down to business with a delay, all members, save Chairman Dornin and Harrison Clay, being present, and John Forest presiding. Nearly all of the session up to the hour of adjournment at 10:30 p. m. was devoted to the revision of Article XII of the tentative charter. This article relates to franchises. Beginning with section 74 each paragraph was carefully revised up to section 87.

MINOR AMENDMENTS.

Minor amendments were made to most of the sections considered, but only in one instance was the question of amendment or adoption of the subject of a roll-call, namely, section 82, dealing with the regulation of public utility rates. After the minimum percentage of the annual net revenue to be allowed the holder of a franchise by the council when fixing rates was reduced, an motion of Chairman Dornin, from 7 per centum to 5 per centum, a roll-call was demanded on the adoption of the section as amended.

The motion to adopt prevailed by a vote of 9 to 4.

Some of the sections were referred back to Dr. Pardee, the author of the article, for revision.

The board adjourned to meet again tonight at 7:30 o'clock.

Governor Undecided On Special Session

Omission of Certain Words in Proposed Constitutional Amendments Noted.

EUREKA, Sept. 20.—Governor Gillett said today that he had not yet decided to call a special session of the legislature to correct the omission of certain words in constituting an amendment No. 1, which will be submitted to the voters at the coming general election in November.

The amendment in question provides for the separation of State and local taxes by words and by acts to the rest of the State and Southern California, particularly during the past year, has intensified my feeling that that proposition should not be a San Francisco fair, but a California fair in every sense of the word from Siskiyou to San Diego. Every good Californian should stand behind the proposition to make it a startling success.

"While abroad I visited England, Scotland, France, Germany, Italy and Switzerland and everywhere I found the deepest interest in this proposition and in the possibility of the canal being opened in 1915. They discussed the prospect of great excursions from London, Cherbourg and Bremen to San Francisco, I heard that talked about repeatedly."

WILL HELP SOUTH.

"The completion of the canal will bring, in my opinion, more than a million people from Europe. I also believe that the holding of the exposition in San Francisco will benefit Los Angeles immeasurably."

"Los Angeles is widely advertised and will be more so and thousands will visit that beautiful city and settle there. I really believe that the fair will benefit the rest of the State more than it will San Francisco. I mean by that that the other sections will reap results without any expenditures."

"I consider Edward Hopkins a just and fair assessor and I believe that his assessment figures—those of 1909, were as just as it was possible to get them. No assessor can be perfect in appraising values in such a rapidly growing county as Los Angeles. The assessment made last year by the Board of Equalization was an unjust, arbitrary move. I was aware of it at that time and as president of the Los Angeles Realty Board, endeavored to create a public sentiment against it. I am glad that the business men of Southern California, this year, were united in an effort to have Southern California protected."

Colonel Garland intends motorizing through New England and will not return to his home city until October.

Rev. Father Thomas McSweeney, who lies critically ill at his residence, was reported this afternoon to be very low, with no change in his condition.

Physicians and nurses who are in command of his recovery, White Doctors Crowley and Adams continue to administer to his suffering. It is not believed that the venerable priest can last much longer, as the malady from which he is suffering, the hemorrhage, fails to respond to treatment.

The concern which his parishioners feel for him is shown by the constant ringing of the telephones and is kept busy giving out bulletins of his condition to the thousands who have themselves at times received the condolence of Father McSweeney.

LOS ANGELENO FAVORS 1915 FAIR AT THE BAY

W. M. GARLAND.

PRESIDENT GARLAND OF REALTY BOARD FAVORS METROPOLIS

NEW YORK, Sept. 20.—William M. Garland, president of the Los Angeles Realty Board, member of the Governor's staff and one of the leading boosters of the Panama-Pacific Exposition in the southland, arrived here from Europe recently and expressed himself heartily in favor of the exposition project. The Colonel regretted that he was unable to be home in time to help the exposition people in their effort to get the State Legislature to vote a \$5,000,000 bond issue. However, he expressed himself as being heartily in favor of the proposition.

"I am for the fair for San Francisco," said Garland. "I am also in favor of the bond issue and I am in favor of the State taking it to the extent of five millions and everybody getting behind San Francisco, a city that practically in six hours raised five million dollars itself."

A CALIFORNIA FAIR.

"The work done by the business men of San Francisco and the feeling of kinship that they have manifested by words and by acts to the rest of the State and Southern California, particularly during the past year, has intensified my feeling that that proposition should not be a San Francisco fair, but a California fair in every sense of the word from Siskiyou to San Diego. Every good Californian should stand behind the proposition to make it a startling success."

CAMPAIGN FOR 1000 MEMBERS STARTS RIVALRY

Tokalon Club in Lead in the Y. W. C. A. Workers' Canvass.

SECURE THIRTEEN NEW NAMES IN ONE-DAY HUNT

Young Women Enthusiastic Over Success of Captains and Lieutenants.

According to the latest reports of the Young Women's Christian Association membership campaign, which was inaugurated Monday morning, the Tokalon Club of that association is in the lead, having secured thirteen new members yesterday.

The club is under the leadership of Miss Sally Skelley, captain, and the following lieutenants: Laura Burtchall, Portense Smith, Glad Middleton, Idell Batchelder, Ronchida Ostrum, Ida Cheshire, Garland Wentworth, May Bodden, Miss August and Marto Clement. Miss Douglas Whitehead, captain of the College Club division, with her corps of lieutenants, is making a splendid showing and is a close second to the Tokalon Club.

The following workers are under the leadership of Mrs. H. L. Kemp, Miss Ida Vosburgh, Mrs. H. F. Hall, Mrs. H. A. Madison, Miss Jennie Eglo, Miss Edith Walls, Mrs. C. M. Gardner and Miss Mabel Parker.

Miss Velva Brown's lieutenants are: Miss E. Carrington, Miss M. A. Walker, Miss O. Baum, Miss A. Casner, Miss M. McCrimmon, Miss D. Lundgren, Miss Alice Terry and Miss Jessie King.

The captains who lead divisions in the membership campaign are: Mrs. J. B. Richardson, Miss Douglas Whitehead, Miss Sally Skelley, Miss Velva Brown, Mrs. H. L. Kemp, Miss Florence Hanna, Mrs. Oscar Long, Miss Oscar C. Boyd, Miss Ella Hill, Miss Leora Houghton, Miss Alice White, Miss Alice Hoyt, Mrs. Henry Wilson, Mrs. Charles Heisen, Mrs. W. J. Raymond and Mrs. H. P. Carlton.

Nominate Lewis for New Jersey Governor

TRENTON, N. J., Sept. 20.—The Republican state convention nominated William M. Lewis for governor on the first ballot today.

Prosecutor Pierre P. Garven of Hudson; Joseph S. Freelinghuyzen, president of the senate and William F. Martin, the latter representing the progressive element, were his opponents.

Condition of Father McSweeney Unchanged

Rev. Father Thomas McSweeney, who lies critically ill at his residence, was reported this afternoon to be very low, with no change in his condition.

BITTER CONTESTS
TO BE SETTLED
AT POLLS

James A. Tawney Winds Up
Hardest Fight of Career
in Minnesota.

PRIMARIES ARE HELD
THROUGHOUT STATE

Roosevelt and Pinchot Take a
Hand in Effort to Influence
the Result.

ST. PAUL, Sept. 20.—With the weather favorable for polling the largest vote ever cast at a Minnesota primary election, Minnesotans are today choosing their party nominees for Congress, county offices and the State Legislature.

Interest centers in the congressional contests because of the prominence of the men involved.

Several of the nine Minnesota congressional candidates have as their opponents pronounced insurgents. In the First, Fourth and Fifth districts the campaign has been hottest. James A. Tawney wound up the hardest fight of his Congressional career last night. Theodore Roosevelt, Clifford Pinchot and other exponents of "progressive" Republicanism have taken a hand in the campaign against Tawney, who is opposed by Sidney Anderson, a young attorney.

ATTACK RECORD.

Anderson and his supporters have attacked Roosevelt's legislative record and made they appeal as supporters of the Roosevelt policies. It is generally conceded that if Tawney wins it will be by a small majority.

"Virtually the same condition exists in the Fourth, where Fred C. Stevens is opposed by Hugh T. Halbert, and in the Fifth, where Frank M. Nye is fighting it out with A. A. Hall.

Representative Clarence B. Miller of Duluth is opposed by Alexander G. McKnight, who is running on a radical insurgent platform, and Elmer Steenerson of the Ninth is opposed by Henry C. George, who is running on the assertion that Steenerson is not an insurgent.

W. S. Hammond, Minnesota's only Democratic Congressman, has no nominal opposition in his party, but R. F. Pillsworth and A. R. Ward are struggling for the Republican nomination.

CANDIDATES WIN
CLUB'S SUPPORT

The Young Men's Republican
Organization Give Johnson
and Melvin Indorsement.

At a meeting of the Young Men's Republican Club, held last evening at headquarters, Blake & Moffat Building, Eighth and Broadway, J. H. Giffan, president, and Rufus R. Smith, secretary, filled their respective chairs. A full complement of officers of the club were present, also the entire executive board and numerous members from all parts of the city. The object of the meeting was stated by the chair to be for the purpose of starting the ball rolling for the November election and he proceeded to show his reasons why Hiram Johnson should be endorsed, in the place of Charles F. Curry, whom the club formerly espoused. Johnson's endorsement was ratified unanimously, a motion to that effect being duly put and carried.

Judge Henry A. Melvin's endorsement was also read and carried. The members are enthusiastic over Melvin's candidacy and will use all their efforts to roll up for him an unprecedented majority.

FERGUSON CONFIDENT.

Don Ferguson, candidate for the assembly, who was present, said that he would soon start out to make a campaign and that with the assistance of the club members he expected to win.

The Panama-Pacific Exposition was endorsed, the club going on record as willing to give the committee all the help in its power to boost for San Francisco and the world's fair in 1915.

A committee of three was appointed to confer with the members of other clubs throughout the city for the purpose of forming a union of all clubs. The young men's club to be a central organization. The consolidation will mean a large part of the city will take in Melrose, Elmhurst, Elmhurst, Fruitvale, Terminal, West Oakland and the Sixth Ward clubs.

Tony Mazziotte, president of the Melrose Republican Club, and W. A. Smith, secretary, were present and heartily endorsed the proposition, and anticipating their efforts for that purpose.

After several strong talks by members of the club, the meeting adjourned to meet next Monday night.

TAFT AND ROOSEVELT HOLD
CONFERENCE IN NEW HAVEN

President and Colonel Meet to Discuss Political
Situation Throughout the Country; Both
Are Reticent

NEW HAVEN, Conn., Sept. 20.—Yesterday President Taft and former President Roosevelt met here for a conference. It was their second meeting since Roosevelt's return from Africa. The conference is understood to have been arranged at Roosevelt's request and for the purpose of enlisting the President's aid in the New York fight.

The conference had its inception Saturday last, though it had been kept a close secret until with a short time of Colonel Roosevelt's arrival here.

CONFERENCE ARRANGED.

Grison and Bannard telephoned Secretary Norton last Saturday and asked that an arrangement be made by which Roosevelt might hold a conference with the President during his New Haven visit. This the President was glad to do. He said he expected to lunch, as usual, with President Hadley, after the Yale corporation meeting.

President Hadley was advised of this and accordingly invited the President, Roosevelt, Bannard, Grison and Secretary Norton to take luncheon together. President Hadley's home being dismantled, the luncheon was given at the home of Henry C. White.

TAFT IS INDORSED.

It came out at the conference, which, in addition to the President and Colonel Roosevelt, included Lloyd C. Grison, C. B. Bannard and Secretary Norton, that the Taft administration is to be indorsed at Saratoga. No mention of Taft as a candidate in 1912 will be made.

It is not the province of a state convention to nominate any man for President in two years ahead, said Bannard at the conference. "Connecticut did not do it, so why should New York?" In the connection it became known that today President Taft deprecated the action of the Ohio Republicans in declaring for him in 1912. He did not think he should be made an issue. The Ohio leaders were anxious, however, that the Taft administration and the Congressional Record should be made a part of the campaign.

INITIATIVE AND
REFERENDUM ISSUE

Republican State Convention
in Denver Is Expected to
Indorse the Plan.

COLORADO SPRINGS, Sept. 20.—The executive committee of the United States of the party at the November election should the Republican state convention in session here today fail to endorse the initiative and referendum.

However, it is believed that the initiative and referendum has been pushed to the front in the leading issue in the convention, and lines are being formed for the battle to come. There is little prospect that anything will be done today other than consider the matter.

TAFT TO TALK TO
LEADERS IN OHIO

President Will Address Valley
Exposition at His Home
Town.

CINCINNATI, Sept. 20.—No extensive program of entertainment has been arranged for President Taft during his visit to this, his home city. His coming is said to be purely for the purpose of seeing the Ohio Valley Exposition and to attend to some private business, but there are reports in circulation that he will be a party to several important political conferences.

The official program of the exposition covers only one day—tomorrow. No schedule for the rest of his stay has been provided by the local committee on entertainment.

President Taft will visit the Ohio Valley Exposition tomorrow and be the guest of honor at an informal luncheon given by the exposition commissioners. The next President will deliver an address before the Ohio Valley Improvement Association, which is to go into session at Music Hall tomorrow. This probably will be the only speech the President will deliver during his visit.

President Taft will attend a dinner at the Business Men's Club in the evening and later will hear the opera "Puccini" at Music Hall.

of the state campaign and took this means of bringing it about. There is no doubt, however, that the slogan of 1912 hung over today's gathering. There was not the cordiality of old between the President and the former President. It was the first time they had met since the story was given out at Oyster Bay that Colonel Roosevelt felt that Taft had not dealt fairly with him in New York and had "sold out to the bosses" there in return for a pledge of aid in 1912. The President felt the injustice of that story keenly. It is said, and as a result of it, the relations between him and Roosevelt can never be the same again.

CONFERENCE ENDS.

The conference lasted little more than an hour. Colonel Roosevelt reached the White place at 2 o'clock and the President had to catch the 3:16 train for Springfield to make connections there for Springfield, whether he is journeying tonight.

It was nearly 2:30 o'clock when the conference ended. President Taft, accompanied by Secretary Norton, was the first to appear, and it was announced that Colonel Roosevelt would ride with the party to the station to see the President off. Grison and Bannard came next. They appeared somewhat serious and went off to one side for a conference by themselves, which seemed quite earnest.

"The President got into the automobile and then followed a wait for several minutes for the colonel, who had been waiting on some fresh linen. He, too, seemed more serious than usual, and announced that he "must preserve his usual reticence and say nothing."

HAD PLEASANT VISIT.

OYSTER BAY, N. Y., Sept. 20.—When ex-President Roosevelt returned to Sagamore Hill yesterday from his conference with President Taft, he said:

"I had a very pleasant interview with the President. He is in an entirely satisfactory talk on the New York situation."

He admitted that the national situation also had been discussed, but declined to repeat what he said. He said, however, that they had not taken up the question of a candidate for governor of New York.

NOTED ORATORS TO
ADDRESS VOTERS

Cummins, Bristow and La
Follette Will Speak in San
Diego During Campaign.

SAN DIEGO, Sept. 20.—With the opening of quarters for the United League Club, the Republican County Central Committee announced last evening that two men, possibly three, of national prominence, Senators Cummins, Bristow and La Follette, would speak in San Diego county during the present campaign. The announcement is based upon word received from the state headquarters of the Republican party at San Francisco. Formal plans for big meetings in San Diego county will not be made as a result until dates for the speakers are announced. The total registration of the county is about 14,000.

ROADBED BROKEN
BY PILE DRIVER

Device Used by the Oakland
Traction Company Saves
Time in Excavating.

The Oakland Traction Company has adopted a very simple but exceedingly effective device for breaking up the concrete roadbed and cable conduit carrying the big tracks of the San Francisco cable car system along the line of Broadway between Fourteenth and Water streets, which has to be done in order to shift the rails and leave a wider area between passing cars. A pile driver and electric driving motor have been rigged to a cable car. In the core of the massive trip hammer a big, broad-bladed chisel has been installed. This is driven into the roadbed at intervals of about one foot, crushing the concrete at every blow. In most instances one blow has proved to be enough to crush the bed of concrete thus performing in the time of a minute what it would take two men at least an hour to break off. The device is, therefore, not only a great labor-saving machine, but also a great time-saver, expediting the work and reducing its cost immensely.

State Committee
Works on Platform

TRENTON, N. J., Sept. 20.—The Republican state committee labored for more than two hours today on a platform prepared by a sub-committee of that body for submission to the state convention on which will select the party's candidates for governor.

It is understood the platform as agreed on does not make specific declaration for state making power for the public utilities commission, as the state has simply stated that the Republican party favors making such amendments to the present utilities law as experience may determine to be necessary, including rate making power.

The platform does not declare for direct primaries and a plank favoring the physical valuation of railroads was deleted.

Tawney's Friends Are

WINONA, Minn., Sept. 20.—With favorable weather, Tawney's day is being pulled in the first district today. At Congressman Tawney's headquarters in this city, confidence is expressed that he will be elected.

TONY MAZZIOTTE

POLITICAL CLUB TO
HOLD BIG RALLY
AND REUNION

MELROSE, Sept. 20.—The Melrose Republican Club has been making extensive plans for its grand rally and reunion which it intends to hold some time next week, under the leadership of Tony Mazziotte, who has led the members through many trying times, and defeated the Fusion forces in the annex district.

WILL PLAN CAMPAIGN.

At the rally next week, which will be held in the newly acquired quarters of the club on the corner of East Fourth street and Forty-seventh avenue, the members will frame up their campaign and prepare to boost their choice for the various offices in the coming election. Councilman Eac is the club's choice for a seat on the board of commissioners, which will take the place of the position of councilman under the new charter.

Superior Bridge, County Clerk Cook and J. H. Clay, who have all worked hard for the prosperity of the annex district, are also favorites of the Republican voters of the city. Superior street and Forty-seventh avenue, which Bridges has had aside many of his personal duties to help the people of Melrose and the outlying districts in securing improvements.

CLAY IS CHOICE.

Bourbon Leader Given
Rousing Reception
in San Jose

SAN JOSE, Sept. 20.—Theodore A. Bell had a rousing reception here last night. He spoke in Turn Verein Hall to some 800 people, all of whom paid close attention to what he had to say. Frequently the Democratic candidate for Governor was interrupted by applause.

On the platform with Mr. Bell were Timothy Spellacy, candidate for Lieutenant Governor; Judge Benjamin F. Bledsoe, candidate for Supreme Justice; H. A. Blanchard, candidate for clerk of the Supreme Court, and Thomas E. Hayden, candidate for Congress in the Fifth District against "Red" Hayes.

LAUDS DEMOCRACY.

"I am proud to remind you," said Bell, "that the Democratic party in this State is responsible primarily for the awakening of the public conscience and our present fair progress toward the State of corporate mismanagement. I am glad to say that the Democratic party of the State is as one man in its determination to restore the government of the State to the hands of the people, where it properly belongs. When the Southern Pacific is once shorn of its unlawful power it should then be subjected to a strict regulation that will protect our people against unjust rates and discriminations of any kind or character."

DEVELOP COUNTRY.

"I believe that most of the great development of the Santa Clara valley and the other great valleys of California will be accomplished through the medium of corporate wealth and that we must not forfeit any opportunity to develop the rich natural resources of California by assuming a position that may be regarded as inimical to honest investment."

Mazziotte was practically unknown in Melrose, but he was warmly received by the voters of that district and soon recognized his ability and leadership. He is the founder of the famous "Taft Club," which were organized throughout the northern part of the state. The club which will hold its annual convention in Melrose will also embrace Fruitvale, Fitchburg and Elmhurst.

PROMINENT SPEAKERS.

William H. Rogers, chairman of the county committee of Santa Clara, called the meeting to order and introduced as chairman of the evening, Leo Archer, son of Judge Archer, a pioneer Democrat.

Other speakers were Judge Bledsoe, Timothy Spellacy, Thomas E. Hayden and H. A. Blanchard.

THE EBB AND FLOW
OF THE SKIRT

The fashionable skirt is as variable as the woman who wears it. No sooner does a style become fixed than it begins to change. The clinging, form-revealing skirt of today becomes the crinoline of tomorrow. From the beautiful to the ridiculous is the life history of every style. The close-fitting skirt was at first as graceful as the outline form of a human body, but its next step was a wrong one. It started to compress these out-thrust hips, ungraceful curves. It was banded in at the bottom. It was made so narrow from the knees to the ankle that to take a natural step was a physical impossibility. Hence the reaction.

The above is taken from the Fashion Talk of Grace Margaret Gould in the October Woman's Home Companion—a splendid article on the over-doing of fashion styles and the importance of adapting them to individual requirements.

CHAMBER OF COMMERCE
TO PLAY BASEBALL

ALAMEDA, Sept. 20.—The Alameda Chamber of Commerce is arranging a baseball game between two picked teams, composed of merchants of the city. The game will be held on Sunday afternoon, October 2, at Alameda Recreation Park. The teams have not been selected as yet, but the merchants are trimming up their arms and eyes for the occasion.

Besides the game, there will be music and other features which will serve to make the afternoon one of entertainment of all kinds.

Machinery by Which Repre-

Chosen, Going.

NEW YORK, Sept. 20.—Primary elections are being held today in Buffalo, in cities of the second class throughout the state and in other cities where the party committees have elected to come under the primary law. Voters of both parties are selecting delegates to the various conventions within their districts and setting in motion the machinery by which their delegates to the state conventions will be chosen.

In this feature of the primaries their interest for the general public centers, the Republican primaries, in particular, using a strong hearing upon the fight between the old guard and progressive element in the party, the latter led by Theodore Roosevelt, for control of the Saratoga convention.

Democratic contests were largely confined to leadership battles.

Roosevelt Silent on
Political Situation

NEW YORK, Sept. 20.—Colonel Roosevelt motored in from Oyster Bay today and took up his work in his offices here. The colonel had nothing to say concerning the political situation, which is expected to engage his entire attention from now on. During the morning he conferred with John Stewart of the League of Republican Clubs.

YOU DON'T NEED A TONIC

Hear Al. Lawrence
and Forget Your
Troubles

AT THE BELL
THIS WEEK

"Al" Lawrence, the noted mimic on the bill at the Bell Theater this week, presents an act that is a sure cure for the blues and if you are not feeling well these days don't take a tonic, but see Lawrence, and forget all about that tired feeling. He will make you laugh in spite of your self. The best part of Lawrence's act is original and not a bunch of worn out and cold storage "gags" that have been going the rounds the past decade.

Another thing that is noticed in his monologue is that he does not use anything suggestive in his talk, but tells good stories in a manner that is catching and forces one to laugh at his least expression. With a feather duster in one hand and wearing a sanctimonious smile, he makes his entrance and for eighteen minutes keeps his audience in a continuous outburst of laughter. "Al" certainly knows how to deliver the right kind of talk, and he says things that wouldn't be at all funny if they came from some one else.

Then again his talk is new and much of it improvised. Mr. Lawrence devotes all of his time to the amusement of others and he is one of those comedians that no one ever tires of.

CHANGE PLACE OF HOLDING BIG BALL

The Water Front Ordinance Passed.

In passing to print the ordinance granting the Southern Pacific a franchise for the Oakland mole and additional water front space contiguous to the mole on the south side the City Council has done the right thing. It is an official ratification of an agreement of settlement which was approved by the voters at the last municipal election. By the terms of that agreement the Broadway wharf reverts to the city and the Southern Pacific agrees to remove at its own expense at the expiration of eight years Long Wharf which is now an obstacle to free access to the 6600 feet of water frontage the city owns between the Southern Pacific mole and the Key Route pier.

But the great object gained is the cessation of all litigation between the railroad and the city over the title and rights of occupancy of the water front. The city's title is acknowledged and confirmed, and the Southern Pacific becomes a tenant of the municipality. At the expiration of the franchise the mole and wharves built and operated under the franchise shall revert to the city without compensation to the company, and the city may take over all depots and other structures on the mole at a valuation to be fixed by appraisers.

As to the absurdly false statement that the franchise would give the Southern Pacific an exclusive monopoly on the western water front we cannot do better than quote Mr. Pendleton, president of the Council, who says in that regard:

"Not only has the city retained the two water front reservations on the west, aggregating 7085 feet, but it has provided ready access thereto by opening three streets to the Key Route basin and a road eighty feet wide to the 1055-foot strip of city water front lying between the Southern Pacific and Western Pacific moles. Furthermore, to enable any competing railway to obtain access to the water front a provision was made that it may have right of way along and over the eighty-foot street. To grant the proposed franchise to the Southern Pacific of a fifth of the water front is not granting a monopoly; on the contrary, not to grant it is manifestly discriminating in favor of the Western Pacific and the Key Route."

Mr. Pendleton also contradicts the foolish statement that the city owns the Oakland mole. The Southern Pacific has an undisputed title to the low tide line. What the city owns is the strip of water lying between the low tide line and the pierhead line.

By brushing away all obstructions and passing an ordinance which fully protects the city's interests at all points, the Council has made another long step in the path of progress. Disputes and expensive litigation are now ended and the development of the water front assured. The Southern Pacific has been placed on an equality with the Western Pacific and the Key Route, and all three stand in precisely the same relation to the city—all three are tenants of the municipality under specified conditions. Exclusive of the frontage granted them by franchise the city still retains a mile and a half of unoccupied space on the western water front, divided into two sections. Free access to these sections is provided by the opening of streets which have remained blocked up to this time.

The Council has worked long and conscientiously in perfecting the details of the compromise, and has finally evolved a plan of settlement that is just to all concerned and will be of enormous benefit to the city. It should be satisfactory to every citizen who has the prosperity of Oakland at heart.

A New York dispatch says, "Roosevelt now has three names on his slate for governor." This is giving the choice of candidates back to the people with a vengeance. Down with the bosses!

A Warning for Republicans.

New England has had only two Democratic Senators since the Civil War—William H. Barnum and William W. Eaton, both from Connecticut. Maine's last Democratic Senator was Hannibal Hamlin, but he virtually abandoned his party before the expiration of his term in 1857. In 1860 he was the Republican nominee for Vice-President, and some years after the expiration of his term went back to the Senate. Now after the lapse of more than half a century Maine is to elect another Democrat to the Senate. She also has a straight out Democrat for Governor, the first she has elected since 1852. Harris M. Plaisted, who was elected by a small plurality in 1880 was a Greenbacker and was nominated on a fusion ticket. He afterward affiliated with the Democratic party, but he went into the Governor's office as a fusionist.

Frederick W. Plaisted, the Governor-elect, has been a Democrat all his life and was elected on a straight Democratic ticket. The two Democrats elected to Congress from Maine are also straight-out party men. The Legislature chosen the other day will elect a regular Democrat to the Senate, not a Populist or some other variety of political nonscript.

The Democratic victory in Maine is therefore not only complete, but is a party victory in the strictest sense. It was won without entangling alliances with any third party and without compromise of principle. Hence it is a triumph in which Democrats all over the country can justly take pride. They have carried a rock-ribbed Republican State, root and branch, in a fair stand-up fight.

Whether the result in Maine is prophetic of a political revolution remains to be seen, but at any rate it is symptomatic of a subtle change that has been coming over New England in recent years. Massachusetts is not nearly as strongly Republican as she has been. Rhode Island has twice elected Democratic Governors in recent years. After being reliably Democratic for twenty years, Connecticut returned to the Republican fold, but the Nutmeg Democrats are again becoming aggressive and formidable. They have shaken off Populist leadership and phantasies and are again on the solid ground of their forefathers. They may possibly elect the Governor this year, but they have no chance of winning the Senatorship.

In Massachusetts the Republicans will have to fight to hold the State. Last year they elected Governor Draper by a scanty majority, and the bitter fight being made on Senator Lodge by an insurgent faction is making the Bourbons bolder and more confident.

With this condition prevailing in New England, California Republicans had better take nothing for granted. Maine warns them to unite, organize and quit fighting among themselves. Republicans cannot hope to win by steering at President Taft and belittling his administration, nor advocating the wilder vagaries of Populism.

Uselessness of Big Warships.

Naval men continue to pooh pooh the idea that the development of aviation is a serious menace to warships, but the teachings of common sense are against them, nevertheless. It may be very difficult to drop high explosives from an aeroplane to the deck of war vessels, but aeroplanes can be constructed in great numbers at comparatively small cost, and while many will fail some will succeed. The development of swift torpedo craft, submarines and submarine mines has made it exceedingly dangerous for fleets to venture too near a hostile coast, and the added menace of aerial attack enormously increases the peril of warships and correspondingly decreases their efficiency. No matter how perilous aerial navigation may be, experience has abundantly demonstrated that in time of war there is never any lack of men who will take any sort of a chance in the hope of distinguishing themselves, even at the almost certain cost of their lives.

As the cost of building and maintaining warships increases enormously, their value as effective engines of war is decreasing in a striking ratio. They cannot take land fortifications, and the danger of destructive attack from beneath and overhead is becoming so acute and varied that they must be exceedingly wary in approaching a coast. Their great draft also compels them to avoid shallow water and all sunken reefs.

In other words, the more money warships cost the less they are worth. They are leviathans easily stung to death by sea ninnows and gadflies. They are splendid examples of mechanical skill and ingenuity, but inshore they are practically powerless to protect themselves from insignificant and inexpensive foes. Wireless telegraphy has diminished their effectiveness, for wireless telegraphy prevents the movement of fleets being kept secret. The sea is no longer a solitude. Man is whispering all over it, and sea craft can no longer mask their movements. Mines, torpedo boats, submarines and aeroplanes threaten them the moment they come within sight of land: a few pounds of high explosive will send a ship costing millions and carrying a thousand men to the bottom of the sea.

WALLS OF A CITY

By REV. ALBERT W. PALMER,
Pastor of Plymouth Congregational Church.

Neh. 2:17—"Come let us build up the wall of Jerusalem." Nehemiah was a practical patriot. He saw that the first essential of a city's life was ability to repel its foes.

The walls of Jerusalem were of stone. Those of Babylon were brick. Holland, before the Spanish invader, defended herself with walls of water. From Russia's walls of snow Napoleon recoiled defeated. It is not essential that a city's walls be made of stone. Her foes are not out yonder somewhere. The only foe she needs to fear are of her own household. What are these foes?

One is poverty and disease. They always walk together. Wherever men work for less than a living wage—wherever children work at all—there we see the foe. Four hundred deaths last year from tuberculosis—preventable disease—there lies the foe. A foe is vice and degeneracy. The Roman empire "crumbled up like an empty shell" before the Barbarians—it was so rotten! Our civilization is still sound at the heart, but the foe is here. The tendency in great cities to an increased indulgence in alcohol, we see again. The apparent craving for sensation in the newspapers points the suggestive family theaters, where vice is flaunted, gay, heartless and unpunished, are all the instincts of womanly modesty are critically disregarded, bear witness to the danger. The appeals by business firms to the gambling mania by offering prize bungalows and automobiles suggest the subtlety of it.

Back of poverty and vice stands the third great master foe of all—the spirit of greed, the ruthless disregard of the sacredness of every human life!

Against these foes, what walls?

VAGRANT VERSE

I don't regret my summer-time vacation. I had a lovely time throughout my stay;

No girl friends kissed me good-by at the station, And hoped I'd have a picnic while away.

Though I am quite contented in a measure, There were some little hitches to my plan;

And chief of all the things that marred my pleasure, I had to come back home without a man!

I started out with prospects that were pleasing; Young chaps in plenty eyed me on the beach.

They found that I was not adverse to squeezing, And most of them declared I was a "peach."

Yet something chilled their great enthusiasm. For ere I left they placed on me their ban;

This is the one regret that caused a pain: I had to come back without a man!

I tried to capture one, but, goodness, gracious, They all were just as wary as could be!

Encouragement I gave them all a plenty. Yet something seemed to upset every plan.

For, though I'm only slightly over twenty, I had to come back home without a man!

WONDERS OF CENSUS

Draw upon the map a strip 40 miles by 400 miles connecting Boston and Washington and there will be within the pencil marks a region comprising the communities of most rapid growth in eight States and the District of Columbia.

This metropolitan strip of greatest population contains in area only one-third that of New York State, nearly 15,000,000 people. By 1930 it will probably contain more than 20,000,000. It includes Providence, Hartford, New Haven, Newark, the thriving New Jersey and Westchester suburbs, Trenton, Philadelphia and Wilmington. New York is almost its exact geographical center.

France has no area of dense settlement to compare with this. Nor have Belgium and Holland combined. In Germany the Rhinish mining and manufacturing region is growing as rapidly, but is yet far behind. Provinces in China are said to have a population half as dense, but no one knows. Only England for a few years, will have a zone of greater population. A broader, shorter strip connecting London with Manchester and Liverpool has now some 15,000,000 souls.

All these human hives of the Old World are inland. Those of China are agricultural. That of Germany has its outlets by the Rhine and by canals. That of England has two great ports. The American belt has a dozen, ranging from more splendid possibilities to Boston, Philadelphia, Baltimore and New York. It is tied together from end to end by steamers, railways and trolley routes. Unlike its rivals, it includes many miles of beautiful beaches, with forests splendid scenery and other provision for playing well as work. Its educational provision is unequalled. It is a little corner of the great earth's surface, but as the certain future home of the vastest and most prosperous population to be brought together anywhere on earth it is a census wonderland worth watching.

—New York World.

LIFE IS CHEAP

Everything is cheap in most of the countries of Continental Europe, but life is the cheapest of all, according to Dr. Effie Lobdell, who has just returned to Chicago after four months of traveling and study on the other side of the Atlantic. Typhoid fever and cholera are raging in many communities, and there is a general lack of systematic effort to check and prevent these diseases, the doctor says, as compared with the efficient methods obtaining in this country. "But," she added, "the people over there can better afford to be sick than we can over here, for they pay their doctors only from twenty to forty cents a visit."

Coupled with her remarks about the prevalence of cholera and typhoid, Doctor Lobdell sounded a note of warning to Americans traveling in European countries, particularly in Italy, to forego salads and all uncooked fruits and vegetables. There are a number of Americans down with typhoid throughout Italy, she said, as a result of their carelessness in the matter of eating and drinking.

In Holland there is also a great deal of typhoid, the doctor counting no less than seven typhoid placards on the doors of houses in one small street in the village of Monnikendam. The condition in Holland is due, in the opinion of the doctor, to the reckless use of the canals, into which all sorts of refuse is dumped.

ARMY OF STUDENTS

Practically every institution of learning in the country, from the modest district school to the big colleges and universities, is expecting a greater enrollment at the opening of the school year within the next few days than has ever before been known. As showing the sincerity of their beliefs in this promising condition for the approaching term, extensive enlargement of the facilities for caring for these additional students are being made.

This is great—a really glorious outlook. It speaks well for the young people who are coming more to recognize the necessity of getting the best which can be procured in education. It means increased opportunities for usefulness.

RELIGIOUS GROWTH

An interesting report has just been made by the census department on the religious bodies in the United States. One of the important divisions of the information is that concerning thirty-eight cities of the country having a population of over 100,000. Naturally, by reason of population the one having the largest number of communicants or members is New York, with 1,853,452, or considerably more than twice the number reported by any other city; and of these 20.3 per cent. were Protestants and 79.7 per cent. Roman Catholics. Among the Protestants the

Methodists lead in eleven cities, namely, Baltimore, Cincinnati, Columbus, Denver, Fall River, Indianapolis, Kansas City, Mo.; Los Angeles, St. Joseph, St. Louis and Syracuse; the Lutherans in Chicago, Cleveland, Detroit, Jersey City, Milwaukee, Minneapolis, St. Paul and Toledo; the Baptist bodies in Boston, Louisville, Memphis, New Orleans, Providence and Washington; the Presbyterians in Albany, Newark, Philadelphia, Pittsburgh, Rochester and Scranton; the Congregationalists in New Haven and Worcester; the Protestant Episcopal in one, New York;—Los Angeles Herald.

20 YEARS AGO IN OAKLAND

County Superintendent of Schools P. M. Fisher is a little sore over his defeat for re-nomination in the Republican convention by F. George W. Erick. He says that the politicians defeated him and not the people. He has been importuned by friends to join in an independent movement, but has declined to do so, but will take his medicine and stand by the Republican ticket. Mr. Fisher will endeavor to succeed Mr. Erick as principal of the Tompkins school in the event of the latter's election.

At the instance of Councilman Collins the southern boundary of the West Oakland Park has been changed from Sixteenth street to Eleventh street for the reason that, as the city grows, more than Sixteenth street will be required for the people to reach the Sixteenth street depot.

In the Piedmont school district there was no election of a school director this year and accordingly County Superintendent of Schools Fisher has appointed G. R. Daniels to fill the vacancy. It is intended before long to build a new school in the district.

A. S. Macdonald, prominent in the business life, club life and society life of this city, has come back from a five months' tour of Europe and returns full of Americanism and is better satisfied than ever to be a Californian. "There is no country, after all, like America," he said, "and no State in the Union like California."

Mrs. Perkins, who, for more than fifteen years, has been matron of the Old Ladies' Home at Temescal and who is now matron of the children's department, has resigned because of friction between herself and the directors.

Miss Sadie Russell, who has been a teacher in this county for a number of years, has gone to Inyo county, where she will take charge of a school.

The fair for the benefit of the church of St. Francis de Sales is to be held in Elite Hall, at the corner of Twelfth and Webster streets. It will open the first week in October and continue two weeks. It will be opened by a concert under the direction of Miss Mary Sullivan, the well-known soprano. The booths will be under the management of the following ladies:

Booth No. 1—Mrs. P. Lohse, Mrs. A. T. McDonough, Mrs. J. E. Taylor, Mrs. M. J. Keller, Mrs. Forbes, Mrs. N. Ryle, Misses Mary Sullivan, Maggie Taylor, E. Hanlin, M. Myers and E. Fowler.

Booth No. 2—Mrs. M. J. Driscoll, Misses Annie and Lizzie Moffitt, Katie Davis, Mrs. Myrick, Mary Hickey and K. Findley.

Booth No. 3—Miss Maggie Smith, A. Porter, A. Nolan, Mrs. Faulkner, L. Cahill and Mrs. Andrieff.

Booth No. 4—Miss Hackett, Miss Fitzgerald and Miss Russell.

Booth No. 5—Mrs. Richardson, Mrs. Keating and Miss M. Murray.

Booth No. 6—Mrs. N. Gallagher, Mrs. Galvin, Mrs. Collins and Misses Georgia Flynn, Thompson and Murray.

Booth No. 7—Mrs. Martin, Mrs. D. Cameron, Misses Laura and Elsie Gylan, Jennie and Bertie Woodward, Cassie Drumm, Miss Martin, Miss Louise Mahoney and Miss Agnes Wheeler.

Miss Bessie Wall's debut as a pianist at the First Presbyterian Church last night was brilliant, artistic and satisfying in every sense of the term and her many friends are delighted with the great success which so prominently establishes her in musical circles. Sigmund Beel, who was the other attraction of the evening, was a delight. Miss Wall's playing is distinctly the result of mastery training, combined with natural talents of the first order.

Judge Ellsworth this morning appointed Edward Hackett, Ephraim Clement and H. T. Smith to appraise the estate of the late Dr. Samuel Merritt, deceased. The fees of the appraisers of this estate will amount to a neat little pile.

Captain J. C. Almsworth may rebuild his residence at Roselawn which was destroyed by fire a few days ago.

CASTLE GIANT. It loomed on the fair horizon. Monstrous and evil and dark. The moat at its base was blackness. And its towers were stern and stark. What horrors those walls encompassed. What bones of forgotten kings. What soulless depths of dungeons. What shadows of unknown things! But it lay in the way before him—Should he pass? Should he turn aside. Where was that flickering light? The path ran fair and wide? Nay, nay! let him press straight forward. Horn at hip and sword at wrist—And lo, the terrible castle. Is a rolling cloud of mist! —Harris Prescott Spofford in New York Independent.

LOWER HOUSE WILL REAPPORTION MEMBERS

Census to Be Followed by the Redistribution of Seats.

DEMOCRATS WOULD OBJECT TO CHANGE THIS SESSION

Loss of Membership by a State Is Not a New Thing.

WASHINGTON, Sept. 20.—One of the first questions which will be called upon to grapple with will be to determine when the next reapportionment of members of the House of Representatives will be made under the recent census law.

It is a well-known fact that the reapportionment of the House of Representatives is a task which is not a new thing. It is a task which has been faced by the House of Representatives in the past.

In 1890 the reapportionment was not formally postponed until the first session of the Congress succeeding the enumeration, but after the census was taken the change was made and the reapportionment bills for the tenth and twelfth Congresses were brought in and passed in each case during the short session of the year.

FIGHT BETWEEN PARTIES

Before the time for the meeting of Congress the result of the census will be known. It is a well-known fact that the reapportionment of the House of Representatives is a task which is not a new thing. It is a task which has been faced by the House of Representatives in the past.

Appropriation in itself is not a new thing. It is a task which has been faced by the House of Representatives in the past. It is a task which has been faced by the House of Representatives in the past.

AS TO DEFICIENCIES

It is a well-known fact that the reapportionment of the House of Representatives is a task which is not a new thing. It is a task which has been faced by the House of Representatives in the past. It is a task which has been faced by the House of Representatives in the past.

NOT A NEW THING

A loss of membership would be no new thing. It is a task which has been faced by the House of Representatives in the past. It is a task which has been faced by the House of Representatives in the past.

After Virginia and Massachusetts reapportioned, with 13 members each, the House of Representatives will have 435 members.

INCREASE OF CITY TAX RATE FROM \$1.26 TO \$1.38 IS RECOMMENDED

Council Finance Committee Declares the Need of Enlarged Funds for Municipal Betterments

Imposing provision for an increase of 12 cents over the tax rate for last year bringing the rate in the old city from \$1.26 to \$1.38 on each \$100 of assessed value on the report of the auditing and finance committee was adopted by the City Council last night. It raises the tax rate for the fiscal year 1910-1911 8 cents over the recommendation of the Auditor George L. Gross.

Need of certain betterments in the city of Oakland is the basis of the recommendation. The committee has found that the city is in need of certain betterments in the city of Oakland.

BIG INCREASE IN REVENUE

The committee's estimate, exclusive of bond interest and redemption was \$1,000,000. It has been raised to \$1,200,000. The increase of 8 cents in the tax rate will bring the revenue to \$1,200,000.

SALARY FUND NOT RAISED

Despite this increase the salary fund transferred from the salary fund to the salary fund is not raised.

REPORT IN FULL

The committee report follows:

INCREASED EXPENDITURES

The auditor has reported a budget finding all amounts required for the various departments within the limit of the budget.

CITY TAXES NOT LARGE

The sum required for city expenses is not large. It is a task which has been faced by the House of Representatives in the past.

NEGRO VOTE

The old leaders of the House are not large. It is a task which has been faced by the House of Representatives in the past.

CHARGES SON IS ILL-CARED FOR

Cora W. Hewitt Declares That Divorced Husband Is Incompetent.

Charging that her divorced husband has proved himself incompetent to care for their minor son Cora W. Hewitt filed a petition this forenoon in the Superior Court asking that Attorney Robert J. Hewitt be ordered to deliver the child into her keeping.

Mrs. Hewitt was granted a divorce from her husband in November 1909 on the ground of extreme cruelty. The custody of the minor daughter being awarded to her and of the son to Hewitt. In her petition filed today she charges that since the final adjudication of the case Hewitt and the son have lived at the corner of Seventh and Broadway, the child being compelled to sleep in a little white room back of the office, which is only about 12 feet long and 10 feet wide and is poorly ventilated.

Mrs. Hewitt also charges that her son is allowed by his father to be out and about on the streets at night when he should be at home studying. She also charges that her son is not properly cared for in an irregular manner that he has no home comforts and no home society. She says she is able and willing to provide a good home for the child and this she asks the court to make it possible for her to do.

OAKLAND FANS ARE DEMANDING THE REINSTATEMENT OF HARRY WOLVERTON

SUSPENSION OF WOLVERTON WILL HURT OAKLAND TEAM

Fighting Harry Has Made Club What It Is, and His Offense Was No Worse Than Lots of Other Team Managers

By EDDIE SMITH.

At 5 o'clock this afternoon Thomas F. Graham, president of the Pacific Coast League, will call before him Captain and Manager Harry Wolverton of the Oakland team and after listening to the evidence submitted by them will decide once and for all whether or not Wolverton will remain suspended for the remainder of the season. The Wolverton-McGreavy affair is a thing that has been passed upon by the new president of the league and the eyes of the baseball fans of the Pacific Coast are upon him and awaiting his final decision. Without wishing to in any way place a pressure on the president, it is felt that he will decide the matter in a way that will keep the Oakland team in the league and the fans of the team will be satisfied with the result. It is felt that the suspension of Wolverton will be a great blow to the Oakland team and that the fans of the team will be disappointed if he is not reinstated.

Oakland is now in a tight spot and the team will be hurt if Wolverton is not reinstated. The team is now in a tight spot and the fans of the team will be disappointed if he is not reinstated.

ATTELL-WOLGAST MATCH
LOOKS TO BE ALL OFF

Jim Griffin does not look to have much of a chance to bring Abe Attell and Ad Wolgast together for the feature of his boxing show next month. Abe is balking at the demands made by the lightweight champion, who started Jim Coffroth some weeks back by asking for a \$10,000 guarantee for a 10-round bout. Attell states positively that he will meet Wolgast only on an equal division of the purse. It is evident that Abe figures he is a champion just as well as Wolgast, and Griffin will have to do some lively talking to make the champions come to some financial understanding.

DETROIT, Sept. 20.—After eleven innings today's Washington-Detroit game was called on account of darkness with the score 8 to 6. The game was of such league variety and several bunt leaguers participated that not less than four men in for tryouts Detroit had four who are only near-veterans. McAleer has laid off for the season. U. Schaefer, Killefer and Beckendorf will play his recruits regularly.

CLEVELAND, Sept. 20.—A rally of the Sox in the sixth inning brought them to the lead in the first game of the Athletics series, 6 to 4.

ST. LOUIS, Sept. 20.—St. Louis defeated Boston, 6 to 3, in the first game of the series. Mitchell and Wood opened each half on the slab, and the former had all the best of it, besides being given the better support in the field.

PHILADELPHIA, Sept. 20.—Philadelphia won from Cincinnati 4 to 2. The game was played in semi-darkness, the batters being unable to see the ball. Egan and Gaspar pitched well, the latter being relieved in the seventh by Fromme to allow a substitution batter.

CHICAGO, Sept. 20.—The Sox won a hard fight from the Yankees 1 to 0. The solitary run came in the third when, with the bases full, Malone grounded to right and was out at first, Block scoring on the play.

ST. LOUIS, Sept. 20.—St. Louis defeated Boston, 6 to 3, in the first game of the series. Mitchell and Wood opened each half on the slab, and the former had all the best of it, besides being given the better support in the field.

CUBS MUST BEAT PITCHERS
TO WIN WORLD'S CHAMPIONSHIP GAMES

Athletics Have Best Boxmen but Chance's Men Are Best Fielders.

The major league races are nearing their close and the pennant winners are practically assured—Chicago in the National and Philadelphia in the American League. Naturally, interest in hitting, basing, pitching and inside baseball never faded each other before. The Athletics have won the pennant of the National League, and the Athletics have won the pennant of the American League.

AUTO DEALERS TO MEET TONIGHT

Announcement of Motordrome Plans by Promoter Prince for This Evening.

(By J. A. HOUL HAN.)

The Oakland Automobile Dealers' Association meets again this evening at St. Mark Hotel at 8 o'clock. Tonight's gathering will be partly, we assume, one of a social nature, since a buffet dinner and smoker is on the cards.

George Middleton and Jack Prince are the invited guests of the evening. The latter will explain at some length the details preliminary to and after the construction of the motordrome.

Ray Morris will preside. Twenty-five of the local dealers have signified their intention of being present.

NEW ESTABLISHMENT OPENED TO SELL USED CARS.

The first up-to-date establishment, properly equipped for the disposal of used cars, has been opened at Twelfth and Madison streets. C. Eastman and O. Easden are the firm managers; the Auto Brokerage Company, the firm name. This new concern deals in nothing but second-hand and used cars.

Already we have disposed of eight cars, said Eastman yesterday, "and are very well satisfied with this splendid business."

Oakland has long felt the need of a store of this kind where a man, wanting a high-grade car at a reasonable price, can satisfy himself in a very short time.

COLE MAKES RECORD RUN.

From Cheyenne to Laramie, Wyo., a distance of 81 miles over some of the toughest roads in the west, in 1 hour and 58 minutes, is the record accomplished by one of the salesmen of the Lincoln Auto Company, of Denver, Colo., last week in a Cole 30.

BUICK MAKES DIFFICULT RUN.

One of the most difficult motor runs recorded was just completed by S. S. White in a Buick Model 10 over a route from St. Paul to Marquette, Mich. Advice received here by Reese & Laurence gives the story of the trip, on which hardship and obstacles rarely experienced by an automobile were encountered.

It seems that there was no road at all save a rough logging trail through a forest. White was compelled to jack his car over obstruction, cut away wind falls and in one instance had to send the car down a 14-foot embankment.

MICHELINS ON ELGIN WINNERS.

R. R. Thompson, manager of the Michelin tires, has received word from the Michelin factory that Michelin tires, "as usual," won the 395-mile race for the Elgin National trophy finishing first, second and third. The Illinois trophy and the Kearsney trophy were also won on Michelins. Neither Mulford, winner of the Elgin trophy, average speed 82 1/2 miles per hour, nor Livingston, winner of the Kearsney trophy, average speed 80 1/2 miles per hour, changed a single tire throughout these long-distance contests.

GOODYEAR ENLARGING FACTORY.

According to advice just received from Akron, Ohio, over 200 tons of structural iron and steel have been shipped into that city this summer for the construction of the various additions that are being made to the numerous rubber factories there.

Most prominent of these additions are those going up in connection with the Goodyear plant, which comprise six new buildings. Five other factories are building from one to three new buildings each.

WRITES OF WONDERFUL E. M. F. PLANT.

Writing from Detroit, Mich., to A. H. Platenburg, manager of the automobile department of the Oakland Studebaker branch, E. M. F. Taylor, a well-known druggist of Oakland, says: "I have just been through the E. M. F. factory—it is a wonderful organization. If you could only take your prospective customers through the plant and show them what is back of the E. M. F. the rest would be easy." Taylor recently disposed of his 1910 E. M. F. at a 25 per cent advance and immediately placed his order for a 1911 model.

RACERS PREPARING FOR VANDERBILT CUP EVENTS

NEW YORK, Sept. 20.—Today marked the beginning of preliminary practice for the Vanderbilt cup race on Long Island. From now until October 1 the course will be open from 5 to 8 o'clock each morning with the exception of Sunday for the drivers to try out their cars.

While not many of the drivers are yet on hand, it is expected that at least a dozen cars will be doing regular work at the course before the end of the week.

MAN VERSUS WOMAN AT GOLF.

NEW YORK, Sept. 20.—A golf match of great interest both here and abroad is soon to be played in England. Calculated to shed light on the much debated problem of man versus woman, the match will be played on the famous Links at St. Andrews. The man in this match is Harold Hilton, who is won not only the British amateur championship but also the "Open." The woman is Miss Cecily Letch, one of the best players abroad and an extremely long driver.

PHILADELPHIA, Sept. 20.—Philadelphia won from Cincinnati 4 to 2. The game was played in semi-darkness, the batters being unable to see the ball. Egan and Gaspar pitched well, the latter being relieved in the seventh by Fromme to allow a substitution batter.

CHICAGO, Sept. 20.—The Sox won a hard fight from the Yankees 1 to 0. The solitary run came in the third when, with the bases full, Malone grounded to right and was out at first, Block scoring on the play.

ST. LOUIS, Sept. 20.—St. Louis defeated Boston, 6 to 3, in the first game of the series. Mitchell and Wood opened each half on the slab, and the former had all the best of it, besides being given the better support in the field.

COUNCIL TO TALK OVER BOND ISSUE

Invites Mayor and Education and Works Boards to Meet for Discussion.

At a meeting of the city council last night the members of the board of education and the mayor were requested to meet with the city council to discuss the question of selling a special election to put before the voters the proposition of bonding the city and to determine whether the amount for which the bonds would be sold would be \$2,000,000 or more.

J. W. McJannet, secretary of the board of education and superintendent of schools, will appear before the joint meeting and present the needs of that board for the coming year for schools.

A public hearing on the proposed sale of bonds will be held at the city hall on Wednesday, September 21, at 10 o'clock a.m. The meeting will be held in the city hall, room 119, on the second floor.

The board of education will also be present at the meeting and will discuss the needs of the schools for the coming year.

The mayor will also be present at the meeting and will discuss the needs of the city for the coming year.

The meeting will be held in the city hall, room 119, on the second floor.
